

Sherwood (formerly Ashland) Simulated Wood Privacy Fence

**CertainTeed
Bufftech®**
Vinyl Fence Products

Bufftech Sherwood Simulated Wood Fence is an extremely durable simulated wood fence with a realistic wood appearance and superior performance. It is constructed with a proprietary blend of polyethylene plastic using a patented rotationally-molded process with reinforced galvanized steel.

The natural looking TrueTexture™ finish is molded from real wood to deliver the most authentic look available today. Sherwood is virtually maintenance-free and never needs painting or staining, plus it will not warp, fade or crack under adverse weather conditions.
